Workshop: Agentic Systems in Biomedicine May 13, 2026, 14:00

Attend a new workshop that will introduce agent-based systems in the context of biomedical research and show how they can be used for data analysis, workflow management, and computing infrastructure! The session will focus on practical applications, limitations, and the principles of safe and meaningful deployment in a professional setting. The event takes place on 13 May 2026 at 14:00, in person at the Second Faculty of Medicine – Plzeň Campus.
